NEW FEATURE LIST

Our groundbreaking new zoning panel includes these exciting new features!

THE ProPanel ™

Controls up to 16 zones

The Pro Panel is our first zoning system to offer this many zones. Daisy-chain up to 4 panels using the easy instructions in the manual.

One-tap equipment settings

Use the built-in presets to set up your new installs with just one tap.

Seamless A2L leak mitigation integration

Connects directly to your equipment's A2L leak mitigation board or RDS for easy installation and A2L compliance.

Downloadable system logs

Use the app to download a history of the system and see equipment runtime.

Advanced features for inverters

Get the most out of inverter heat pumps with even more features. We made the staging timers adjustable and improved the temperature ranges for some settings to work better with modern inverters.

Fully configurable staging control

For the first time ever, you can adjust staging timers *and* temperature thresholds to maximize the effectiveness of multi-stage equipment.
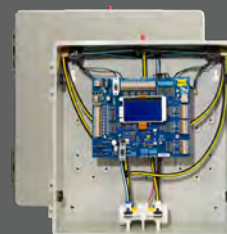

Mobile app ensures easy setup and diagnostics

Our new mobile app connects to the panel with Bluetooth to make setup and diagnostics a breeze! The advanced dashboard puts all of the current system information at your fingertips on one page.

System dashboard

Plus, if you love our *HeatPumPro®*, you'll be happy to see these features are back:
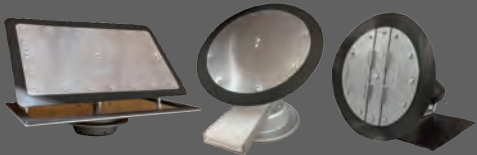

- Works with any 4 or 5 wire thermostat, no matter what type of equipment

- Allows blower and condenser to stage independently

- Zone weighting controls staging based on the amount of available ductwork

COMPATIBILITY

The Pro Panel is a *universal* zoning control panel. It's compatible with all major types of equipment, including:

- conventional furnace and air conditioner
- split and package geothermal
- heat pump
- dual fuel
- all-electric
- up to 4 stages of heat and 2 stages of cooling

Get the **Arzel difference** with our reliable air-driven dampers. Plus:

- Our new polycarbonate enclosure with virtually silent operation
- All of our panels work with our whole line of innovative damper options: from retrofit, to sleeved, to custom sizes!

PART NUMBERS

- **PAN-PRO2** (2-zone panel)
- **PAN-PRO3** (3-zone panel)
- **PAN-PRO4** (4-zone panel)

Warranty

All Arzel Zoning systems are covered by a Lifetime Parts Warranty. Simply register the system within 90 days of installation at

www.arzelzoning.com/warranty

Contractor Technical Support

Technical Support can be reached directly from the Pro Panel mobile app. Contact Arzel Tech Support with any technical questions or issues.
